Monthly Statistical Summaries of Weather Stations	1 - 324

Preface

This report is part of a three-volume report containing hydrologic and meteorological data collected by the Flood Control District of Maricopa County during the water year 2002. This report is volume three and contains weather station statistics.

Twenty-seven telemetered weather stations are included in this report (Gila Bend Landfill was added in January). Twenty-two of the stations are located within Maricopa County, four in Yavapai County and one in Pinal County. All weather stations report temperature and relative humidity, and many report wind direction, wind speed, barometric pressure and solar radiation.

The temperature, relative humidity, and wind sensors record data every 15 minutes; the barometric pressure and solar radiation sensors every 30 minutes. Dewpoint temperature is calculated by the ALERT computer using temperature and relative humidity data.

The weather summaries contain daily maximum, minimum and mean values for temperature, relative humidity, and dewpoint. The summaries also contain daily maximum values for peak wind and solar radiation; and daily maximum and minimum values for barometric pressure. The weather stations also record precipitation; however that data is located in the "Flood Control District of Maricopa County Annual Hydrologic Data Report Volume 1".

Weather data has been edited and is as accurate and complete as possible. Footnotes indicating periods of missing data have been added to the appropriate weather summaries. Although every possible means has been taken to provide accurate data, the liability for using this data falls upon the user, and not the Flood Control District of Maricopa County.

Additional copies of this report, or any of the other volumes titled "FCDMC ALERT Annual Hydrologic Data Report - Water Year 2002" (earlier years also available), may be purchased from:

Summary: 89 60 30 55 33 6 82 9 29 1022 1008 747

Sensor 6781 down most of 11/19 1600-2346; also most of 11/20 0601-1946. Sensor 6782 down most of 11/19 0430-2346.

Sensor 6778 down most of 11/19 1330-2400. Sensor 6783 down most of 11/16 0745-1415; also most of 11/17 1245-2315.

Sensor 6784 down numerous times 6 hours or more 11/16 through 11/27. All sensors many data gaps of 2 to 4 hours.
