

**Weather Statistics and Alluvial Fan Data Report
Water Year 1998**

**FCDMC
Annual Hydrologic Data Report
Volume III: Weather Sensor Statistics
Water Year 1998**

Preface

This report is part of a five-volume report containing hydrologic and meteorologic data collected by the Flood Control District of Maricopa County during water year 1998. This report is volume three and contains the 1998 weather station data as well as precipitation and or runoff events that occurred at the three alluvial fan study sites.

The Flood Control District of Maricopa County operates 15 telemetered weather stations, 13 of which are located in the county while 2 are located outside the county. Most weather stations record temperature, relative humidity, dewpoint, wind direction, wind speed, barometric pressure and solar radiation. The exceptions are Carefree Ranch, Magma FRS, and Indian Bend Wash at Indian School which do not record barometric pressure, and Hassayampa River at I-10, Magma FRS and Indian Bend Wash at Indian School which do not record solar radiation.

The temperature, relative humidity, wind direction, and peak wind gages record data every 15 minutes while the barometric pressure and solar radiation record every 30 minutes. The dew point temperature is calculated by the ALERT computer system using the data from relative humidity and temperature gages. The weather data summaries contain daily maximum, minimum and mean values for temperature, relative humidity and dewpoint. The summaries also contain daily maximum values for peak wind and solar radiation and have both daily maximum and minimum values for barometric pressure. The weather stations also record precipitation, however, that data is located in the Flood Control District of Maricopa County Annual Hydrologic Data Report Volume I.

Weather data has been edited and is as accurate and complete as possible. Footnotes indicating missing data have been added to the appropriate weather summaries. Although every possible means has been taken by the Flood Control District of Maricopa County to provide accurate data the liability for using this data falls upon the user and not the Flood Control District of Maricopa County.

Additional copies of this report, or any of the other volumes titled "FCDMC ALERT Annual Hydrologic Data Report – Water Year 1998" may be purchased from:
